- 3. Did the admission in dispute involve unusually costly services?
- 4. Is the requestor entitled to additional reimbursement?

Findings

This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 Texas Administrative Code §134.401, titled Acute Care Inpatient Hospital Fee Guideline, effective August 1, 1997, 22 Texas Register 6264. The Third Court of Appeals' November 13, 2008 opinion in Texas Mutual Insurance Company v. Vista Community Medical Center, LLP, 275 South Western Reporter Third 538, 550 (Texas Appeals – Austin 2008, petition denied) addressed a challenge to the interpretation of 28 Texas Administrative Code §134.401. The Court concluded that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved unusually costly and unusually extensive services." Both the requestor and respondent in this dispute supplemented the original MDR submissions. The Division received supplemental positions as noted above. Positions were exchanged among the parties as appropriate. Documentation filed by the requestor and respondent to date is considered in determining whether the admission in dispute is eligible for reimbursement under the stop-loss method of payment. Consistent with the Third Court of Appeals' November 13, 2008 opinion, the Division will address whether the total audited charges in this case exceed \$40,000; whether the admission and disputed services in this case are unusually extensive; and whether the admission and disputed services in this case are unusually costly. 28 Texas Administrative Code §134.401(c)(2)(C) states, in pertinent part, that "Independent reimbursement is allowed on a case-by-case basis if the particular case exceeds the stop-loss threshold..." In that same opinion, the Third Court of Appeals states that the stop loss exception "...was meant to apply on a case-by-case basis in relatively few cases." 28 Texas Administrative Code §134.401(c)(6) puts forth the requirements to meet the three factors that will be discussed.

- 1. 28 Texas Administrative Code §134.401(c)(6)(A)(i) states "to be eligible for stop-loss payment the total audited charges for a hospital admission must exceed \$40,000, the minimum stop-loss threshold." Furthermore, 28 Texas Administrative Code §134.401(c)(6)(A)(v) states that "Audited charges are those charges which remain after a bill review by the insurance carrier has been performed." Review of the explanation of benefits issued by the respondent finds that the carrier did not deduct any charges in accordance with §134.401(c)(6)(A)(v); therefore the audited charges equal \$83,617.40. The Division concludes that the total audited charges exceed \$40,000.00.
- 2. 28 Texas Administrative Code §134.401(c)(2)(C) allows for payment under the stop-loss exception on a case-by-case basis only if the particular case exceeds the stop-loss threshold as described in paragraph (6). Paragraph (6)(A)(ii) states that "This stop-loss threshold is established to ensure compensation for unusually extensive services required during an admission." The Third Court of Appeals' November 13, 2008 opinion states that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved...unusually extensive services" and further states that "independent reimbursement under the Stop-Loss Exception was meant to apply on a case-by-case basis in relatively few cases." In its position, the requestor states:

The medical records on file with MDR show this admission to be a complex removal of cervical hardware at C5-C6 and C6-C7 with insertion of pain pump. This complex spine surgery is unusually extensive for the following reasons:

- This type of surgery is unusually extensive when compared to all surgeries performed on workers' compensation patients in that only 19% of such surgeries involved operations on the spine and;
- This patient had persistent elevated blood pressure; he had to have a foley catheter inserted after surgery because he could not void and had multiple episodes of emesis (vomiting) that had to be controlled.

The requestor's categorization of spinal surgeries presupposes that all spinal surgeries are unusually extensive for the specified reasons. The requestor did not submit documentation to support the reasons asserted, nor did the requestor point to any sources for the information presented. The reasons stated are therefore not demonstrated. Additionally, the requestor's position that all spinal surgeries are unusually extensive does not satisfy §134.401(c)(2)(C) which requires application of the stop-loss exception on a case-by-case basis. The Third Court of Appeals' November 13, 2008 opinion affirmed this, stating "The rule further states that independent reimbursement under the Stop-Loss Exception will be 'allowed on a case-by-case basis.' *Id.* §134.401(c)(2)(C). This language suggests that the Stop-Loss Exception was meant to apply on a case-by-case basis in relatively few cases." The requestor's position that all spine surgeries are unusually extensive fails to meet the requirements of §134.401(c)(2)(C) because the particulars of the services in dispute are not discussed, nor does the requestor demonstrate how the services in dispute were unusually extensive in relation to similar spinal surgery services or admissions. For the reasons stated, the Division finds that the requestor failed to demonstrate that the services in dispute were unusually extensive.

3. In regards to whether the services were unusually costly, the Third Court of Appeals' November 13, 2008 opinion concluded that in order to be eligible for reimbursement under the stop-loss exception, a hospital must demonstrate that an admission involved unusually costly services. 28 Texas Administrative Code §134.401(c)(6) states that "Stop-loss is an independent reimbursement methodology established to ensure fair and reasonable compensation to the hospital for unusually costly services rendered during treatment to an injured worker." The requestor's supplemental position statement asserts that:

The medical and billing records on file with MDR also show that this admission was unusually costly for at least the following reasons:

• The median charge for all workers' compensation inpatient surgeries is \$23,187; the median charge for workers' compensation surgeries of this type is \$39,000; therefore the audited billed charges for this surgery substantially exceed not only the median charges, but also the \$40,000 stop-loss threshold;

Therefore, additional reimbursement should be ordered under the stop-loss exception.

The requestor asserts that because the *billed charges* exceed the stop-loss threshold, the admission in this case is unusually costly. The Division notes that audited charges are addressed as a separate and distinct factor described in 28 Texas Administrative Code §134.401(c)(6)(A)(i). Billed charges for services do not represent the cost of providing those services, and no such relation has been established in the instant case. The requestor fails to demonstrate that the *costs* associated with the services in dispute are unusual when compared to similar spinal surgery services or admissions. For that reason, the Division rejects the requestor's position that the admission is unusually costly based on the mere fact that the billed or audited charges

"substantially" exceed \$40,000. Therefore, the requestor fails to demonstrate that the resources used in this particular admission are unusually costly when compared to similar spinal surgery services or admissions.

- 4. For the reasons stated above, the services in dispute are not eligible for the stop-loss method of reimbursement. Consequently, reimbursement shall be calculated pursuant to 28 Texas Administrative Code §134.401(c)(1) subtitled Standard Per Diem Amount and §134.401(c)(4) subtitled Additional Reimbursements. The Division notes that additional reimbursements under §134.401(c)(4) apply only to bills that do not reach the stop-loss threshold described in subsection (c)(6) of this section.
 - Review of the submitted documentation finds that the services provided were surgical; therefore the standard per diem amount of \$1,118.00 per day applies. Division rule at 28 Texas Administrative Code \$134.401(c)(3)(ii) states, in pertinent part, that "The applicable Workers' Compensation Standard Per Diem Amount (SPDA) is multiplied by the length of stay (LOS) for admission..." The length of stay was two days. The surgical per diem rate of \$1,118.00 multiplied by the length of stay of two days results in an allowable amount of \$2,236.00.
 - 28 Texas Administrative Code §134.401(c)(4)(A), states "When medically necessary the following services indicated by revenue codes shall be reimbursed at cost to the hospital plus 10%: (i) Implantables (revenue codes 275, 276, and 278); and (ii) Orthotics and prosthetics (revenue code 274)." Review of the requestor's medical bills finds that 24 items were billed under revenue code 0278. These items are eligible for separate payment under §134.401(c)(4)(A) as follows:

Itemized Statement Description	Units	Cost per Unit	Cost + 10%
Healos II 5cc	1	\$710.00	\$781.00

28 Texas Administrative Code §134.401(c)(4)(C) states "Pharmaceuticals administered during the admission and greater than \$250 charged per dose shall be reimbursed at cost to the hospital plus 10%. Dose is the amount of a drug or other substance to be administered at one time." A review of the submitted itemized statement finds that the requestor billed \$425.00/unit for Morphine Sulfate PCA, 30mg/30ml; and \$419.35/unit for Fluticasone/Salmeterol Inh. The requestor did not submit documentation to support what the cost to the hospital was for these pharmaceuticals. For that reason, additional reimbursement for these items cannot be recommended.

The Division concludes that the total allowable for this admission is \$3,017.00. The respondent issued payment in the amount of \$3,017.10. Based upon the documentation submitted, no additional reimbursement can be recommended.

Conclusion

The submitted documentation does not support the reimbursement amount sought by the requestor. The requestor in this case demonstrated that the audited charges exceed \$40,000, but failed to demonstrate that the disputed inpatient hospital admission involved unusually extensive services, and failed to demonstrate that the services in dispute were unusually costly. Consequently, 28 Texas Administrative Code §134.401(c)(1) titled Standard Per Diem Amount, and §134.401(c)(4) titled Additional Reimbursements are applied and result in no additional reimbursement.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
